Radio

Music program & mini DJ label organized by former participants.

Since we started in 2017 our goal is to support teenagers in developing their skills and passions. The fundamental axiom has always been: You need to find something that you enjoy doing and keep getting better at it.

We started with workshops, where we connected tougher professionals from various disciplines with teenagers. Once the pandemic hit, we had to adapt our approach: In the year 2021 we went all in on a crucial aspect of self-development: Exposure. We are making sure that those cool things created by teenagers are actually seen by everyone.

In 2022 we expanded on that. We provided teenagers with tools, connections and opportunities to present themselves. Together with them, we created 10 magazines, events and collaborations with Berlin Photo Week™, Nike™ and Soundboks™.
